## A touch of luxury

**NEW**

A splash of luxury and extravagance can spice up your bathroom interior. Make the look of this functional room more compelling by decorating it using tasteful tones, original finishes, and unusual details. With its simple, rounded form, the new KLUDI AMEO line

reflects the current trend in modern design towards soft minimalism. As well as embodying cutting-edge design, the KLUDI AMEO line offers advanced functionality and a broad range of features – and at prices that will accommodate just about everyone’s budget.

The simple shape of the spout and the rounded form of the body of the KLUDI AMEO fitting is guaranteed to appeal to those who appreciate the latest design trends.

The discreet markings for cold and hot water on the handle are small but important details.

The clean lines of the body and handle make this fitting an ideal component of a visually harmonious interior design.

# One series, many possibilities

Do you dream of having a washbasin that is discreetly embedded in the vanity? Or maybe your vision of a perfect bathroom interior includes a standalone washbasin placed on a block of stone? Regardless of your preferences, you will surely find a KLUDI AMEO mixer to complete your bathroom design.

## Timeless design

We all love timeless interiors that continue to attract the eye even as fashions change. Add your unique decorative touch by arranging traditional ceramic tiles in a non-standard way. A washbasin mixer installed on the wall can also provide an unconventional accent to an otherwise classic interior.

Each day begins in the bathroom. Going through your morning routine in a beautiful interior is a pleasurable way to start to the day.

A sip of your favourite coffee and a croissant will give you energy and lift your mood.

# A formula for an original interior

Who says a bathroom has to be covered with ceramic tiles? Choose brick – a wall finishing that has recently become a big hit in the world of design. To create a modern and original interior, combine a brick facade with a tall mixer with a side handle and a wide base.

If you appreciate bold design, you will be drawn to the sleek and slender form of the KLUDI AMEO mixer.

## Fashionable ecology

Conserving water is more than just a way to show your love for the natural environment – it can save you money. These days, water-conserving technologies are available not just for spa resorts and hotels, but for home bathrooms as well.

When purchasing a fitting, consider choosing a basin mixer with the new s-pointer eco aerator that allows you to limit water consumption to a maximum of 6l/min.

The s-pointer eco aerator enables you to adjust the angle of the water stream, and lower your water consumption.

## A balanced interior

White and black, wood and steel, modern and vintage elements – can one interior contain so many contrasts? Of course, it can – just add each element in moderation and choose the proper equipment, such as fittings with delicate shapes.

Can't wait to furnish your first flat? Choose comfortable solutions.

Fashionable solutions do not have to be expensive. The KLUDI AMEO series combines modern design with an affordable price.

# The art of combining contrasts

Pastels, whites and beiges are the colours most often seen in bathrooms. Break the mould – create a space that is truly original by choosing distinctive textures and intense colours, and then complementing your bold design concept with unconventional furniture, lighting and designer accessories. A simple yet luxurious three-hole mixer will perfectly complete the look. The clean, beautiful lines of the spout and the handles are positively captivating in this striking space.

A flat, elongated handle on a three-hole fitting or a minimalist pointed handle are two options that go well with the design of the KLUDI AMEO series.

## In your style

The design of your bathroom is just as important as the design of your kitchen or living room, and can be tailored to suit your individual taste. Choose the style, accessories and fixtures that go best with your lifestyle.

The round dials of the KLUDI AMEO mixer mirror the cross-section of its body.

The merger of the subtle shape of the spout into the ascending curve of the body is a hallmark of KLUDI AMEO fittings.

# Let your bath last forever

An evening bath is often the only time of the day that you have all to yourself. A moment of relaxation with a book and the sound of calming music is a soothing way to end the day. KLUDI AMEO will transform your bathroom into a comfortable relaxation zone.

The length of the three-hole mixer spout – 220 mm – makes this solution perfect for installation on the wide edge of a bathtub or a shelf next to a tub.

# Invisible perfection

KLUDI AMEO fittings come equipped with the most advanced technologies, such as a reliable ceramic cartridge, backflow protection, and the new s-pointer eco areator that allows you to adjust the water flow and limit it to 6l/min. The KLUDI AMEO mixer is also available with an easy-to-use ergonomic handle and a concealed thermostatic option. The choice is yours.

The shower/bathtub diverter embedded in the curve of the spout is almost perfectly concealed.

## A beautiful form

An elegant fitting can improve the appearance of any shower cabin. Striking shapes, elements hidden inside the wall, and designer dials can dress up an otherwise ordinary shower system.

A wall-mounted shower mixer with a convenient side handle is an innovative solution that ensures comfort.

The wall-mounted fittings have the same lines as the rest of the KLUDI AMEO series.

# Ergonomics are the priority

Regardless of which shower mixer you choose, you will find it easy to use thanks to the convenient switches, clear markings and precise dials for regulating water flow and temperature. These features will ensure that your bath or shower is safe and comfortable.

## KLUDI – the most innovative brand

An independent international group of experts has presented the KLUDI brand with an award for outstanding achievement in the areas of quality, functionality, ergonomics, design and ecology. The Plus X Award for the Most Innovative Brand confirms KLUDI's reputation for excellence and its strong position on the international market. As the award has been presented to relatively few companies in the sanitation industry, we are very proud to have received this title.

## Icons and functional markings

Our unique and practical designs will satisfy your individual needs. Our fittings are created with you in mind!

S-pointer

Angle of water flow can be adjusted to fit different shaped basins.

Eco

Saves at least 40% water.

HotStop

Fitting with anti-scald limiter at 38°C.
